

Test 8—Question 1: Data Analysis and Probability

- 1** Mel's Market is having a sale on Slam Cola. Customers can buy up to 10 six-packs at the sale price. The manager took a survey to see how many six-packs customers bought. The results from the first twenty customers are shown below.

6 10 8 7 1 5 6 1 6 3
6 2 3 6 8 1 4 6 3 1

Use this data to complete the frequency table below.

Market Survey

Number of Six-Packs	Number of Customers
1–2	
3–4	
5–6	
7–8	
9–10
